Election/Restrictions

Applicant's election without traverse of Group I and species in the reply filed on 10/31/07 is acknowledged.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 2, 5, 6, 7, 9, and 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claims 1 and 2, the phrase "for example" renders the claims indefinite because it is unclear whether the limitation(s) following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

Claims 1, 2, 5, 6, 7 are vague and indefinite because it is unclear of what are the metes and bounds for the phrase, "derivative thereof". Such term is broad and can include any chemical modifications that are made possible in organic chemistry and therefore includes any compounds or any resulting compounds of a chemical reaction, for example.

Claims 1, 2, 6, 7 are vague and indefinite because it is unclear what exactly is the "linker" structure in the formula. Can it be a single bond or does it have to comprise any atoms?

Claims 5, 9, 10 provide for the use of the process in PET, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claim 5 is rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).
